secret style guide page

site purpose:

this sites purpose is to showcase my app designs, and ideally land me a job or freelance position as an app designer.

audience:

the audience for this site would be a hiring manager at a tech company, and other designers that i look to receive feedback from.

hex: #000000
rgb: 0, 0, 0
cmyk: 0, 0, 0, 100

site spacing / padding:

the site uses 25pt padding on the sides and at the top and bottom. between side by side design mockups there is 10pt padding. between app icons there is 15pt padding. between subtitles and body text there is 0 pt padding.

site elements and asset rules:

this site features a buttonless design where you click on elements to select that page. there are no backgrounds for any button. 2 images must be side by side on desktop if the image is narrow and only 1 on mobile. links must be text pages, no button based links.

images must be webp based for optimization reasons. all images must be high resolution. designs must be inside device frame where applicable. secondary menu bars must use bitter 20pt.
